

Summary of Selected NNIPHQ Activities in 2017

Develop guides

- Guide for Community Training on Data and Technology
- The Business of a Local Data Intermediary
- A Tool for Organizational Planning: The Business Model Canvas
- Lessons on Data Management Practices for Local Data Intermediaries
- Resource list on geocoding services
- Ecosystem Mapping for Civic Tech and Data (forthcoming)
- Guide to DataSpark's data story process (forthcoming)
- Resource list on governance and data security related to confidential data (forthcoming)

Facilitate peer support and dialogue

- Two NNIP Partners' meetings in Baltimore and Indianapolis
- Pre-session on "Governance and Data Security for Integrated Data Systems"
- Small technical meeting on data integration and linking methodologies
- Two Idea Showcases and an ACS.R Package webinar
- Conference call to plan for a technology committee

Share stories of impact

- Implementation of the G. Thomas Kingsley Impact Award for NNIP Partners
- Brief: Empowering the Public and Nonprofit Sectors with Data and Technology
- Completed/in-progress stories: Detroit, New Haven, Indianapolis, New Orleans, St. Paul, Austin, Dallas, Kansas City
- Planned stories: Community health needs assessments, working with United Ways
- Brief series: How NNIP Partners Work with Local Government (forthcoming)

Develop cross-site projects

- Completed: NNIP project on Expanding Training on Data and Technology to Improve Communities and OMH Community Data Hubs (see guides above)
- Continuing: Turning the Corner and Civic Tech and Data Collaborative

Conduct national outreach

- NNIP Update – a quarterly newsletter with about 3,500 subscribers
- Attendance at meetings of Administrative Data Research Facilities Network, All In Data for Community Health Network, Census Opportunity Project, Community Indicators Consortium, Civic Analytics' Network, and MetroLab
- One-on-one calls with many local and national organizations about NNIP
