NDSC Criminal Justice Data Initiative

Improving collaboration and trust between law enforcement and the communities they serve through:

• Reliable, current neighborhood-level data
• Community discussions and convenings
• Data storytelling

Event Format

- Presentation, panel, facilitated dialogue

- Question 1: How do you define public safety?
- Question 2: How do you judge a neighborhood’s safety? What data would tell you that you are moving into a safe neighborhood?
Community Conversations

• Results from table talk

• Listening Sessions with community members
  • Go over data – what does it all mean?
