

# Data Driven Cities: An Oakland Experience

Steve Spiker (GISP)

Director of Research + Technology

Urban Strategies Council

@urbanstratoak @infoalameda @spjika

# Urban Strategies Council...

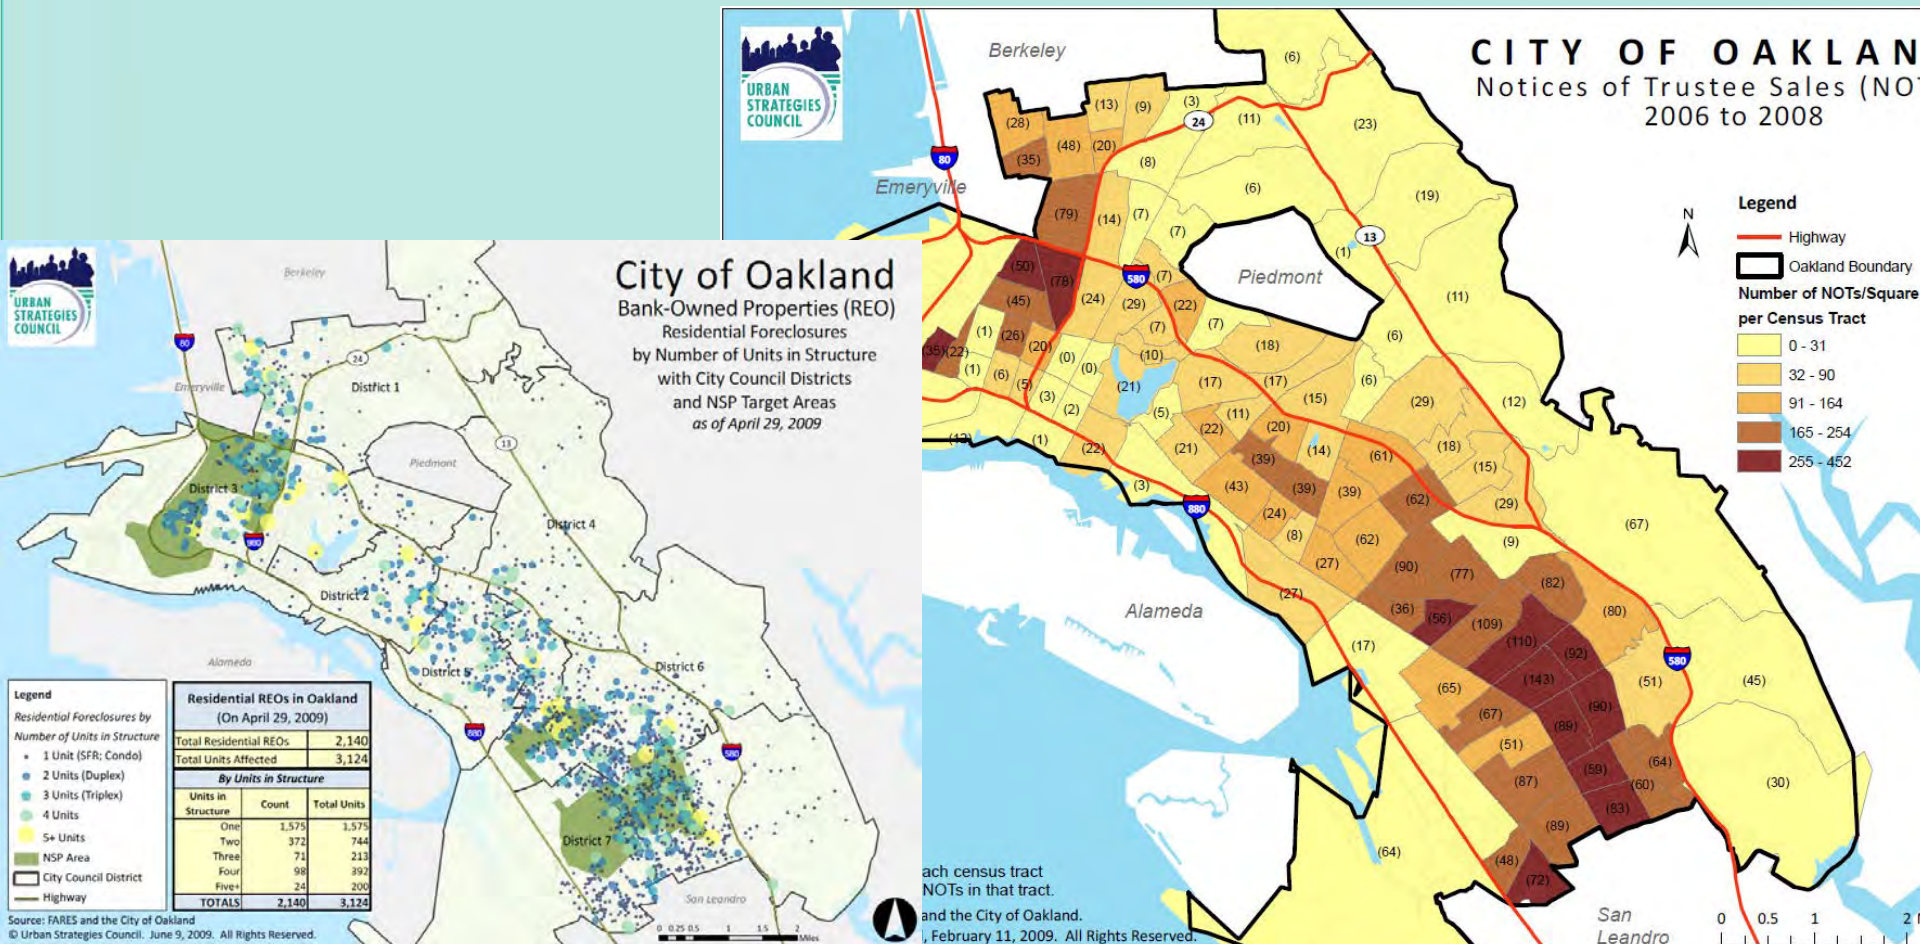

- ▶ A social impact organization.
- ▶ 25 years based in Oakland!
- ▶ Incubator
- ▶ Civic innovation
- ▶ Applied research, data management and geospatial.

[www.urbanstrategies.org](http://www.urbanstrategies.org)

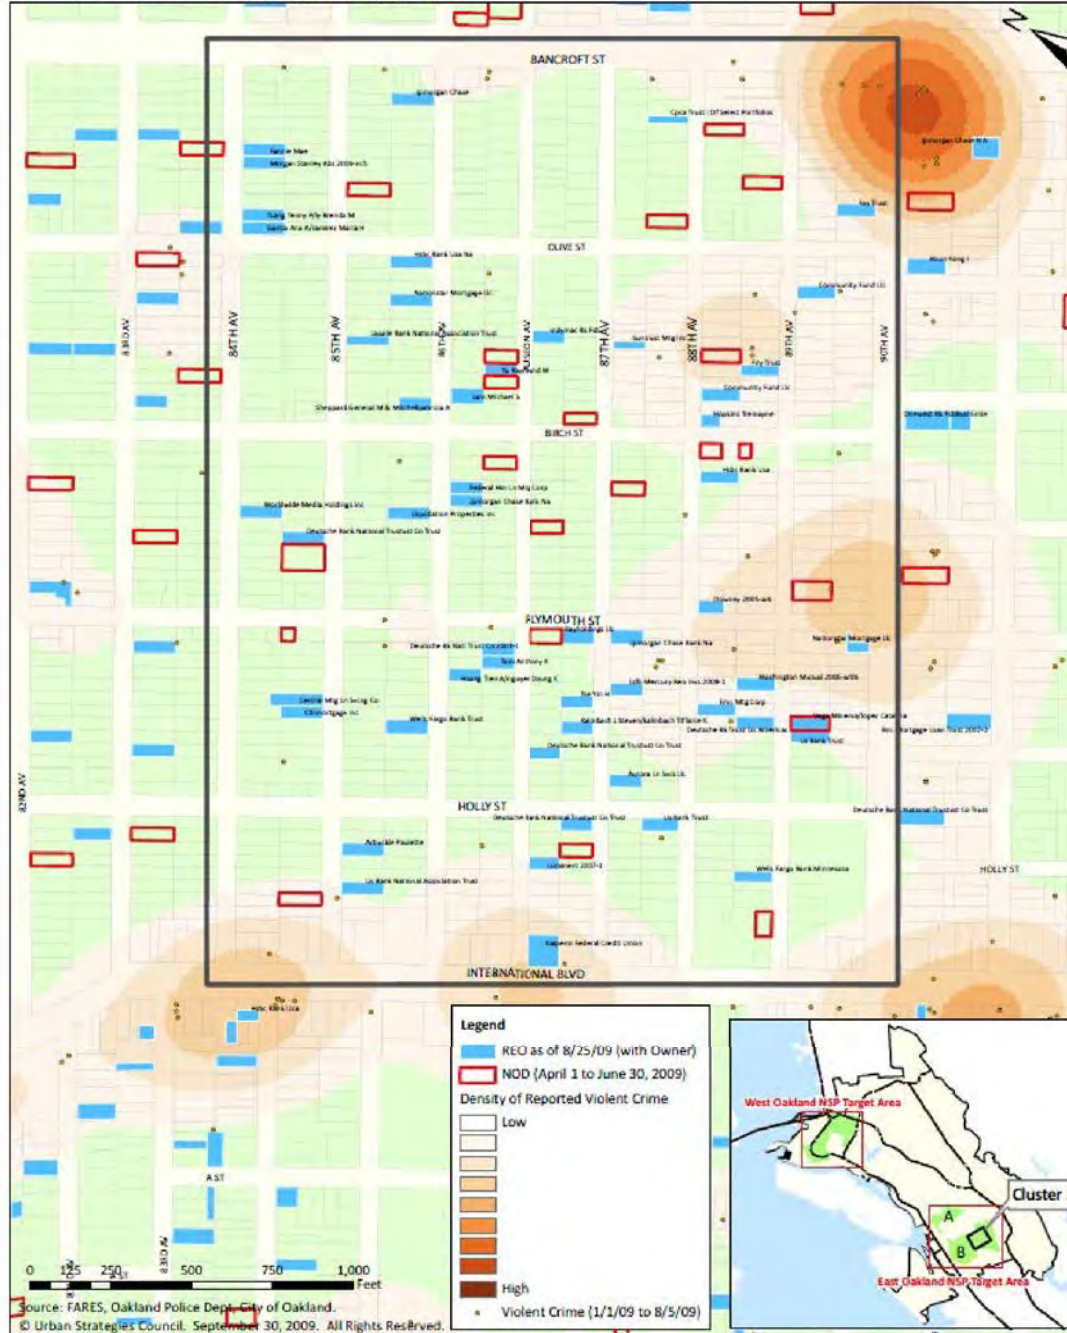

# Foreclosures

- Concerns raised by organizing partners
- Purchased data since 2006
- Analyze, publish maps/data for community/policy

# Foreclosures

- Midway in crisis- no formal response..
- Identify CLT as model to fit
- City registration policy- doesn't stop foreclosures

# Foreclosures

- Data mining- private investors- new research- new response needed

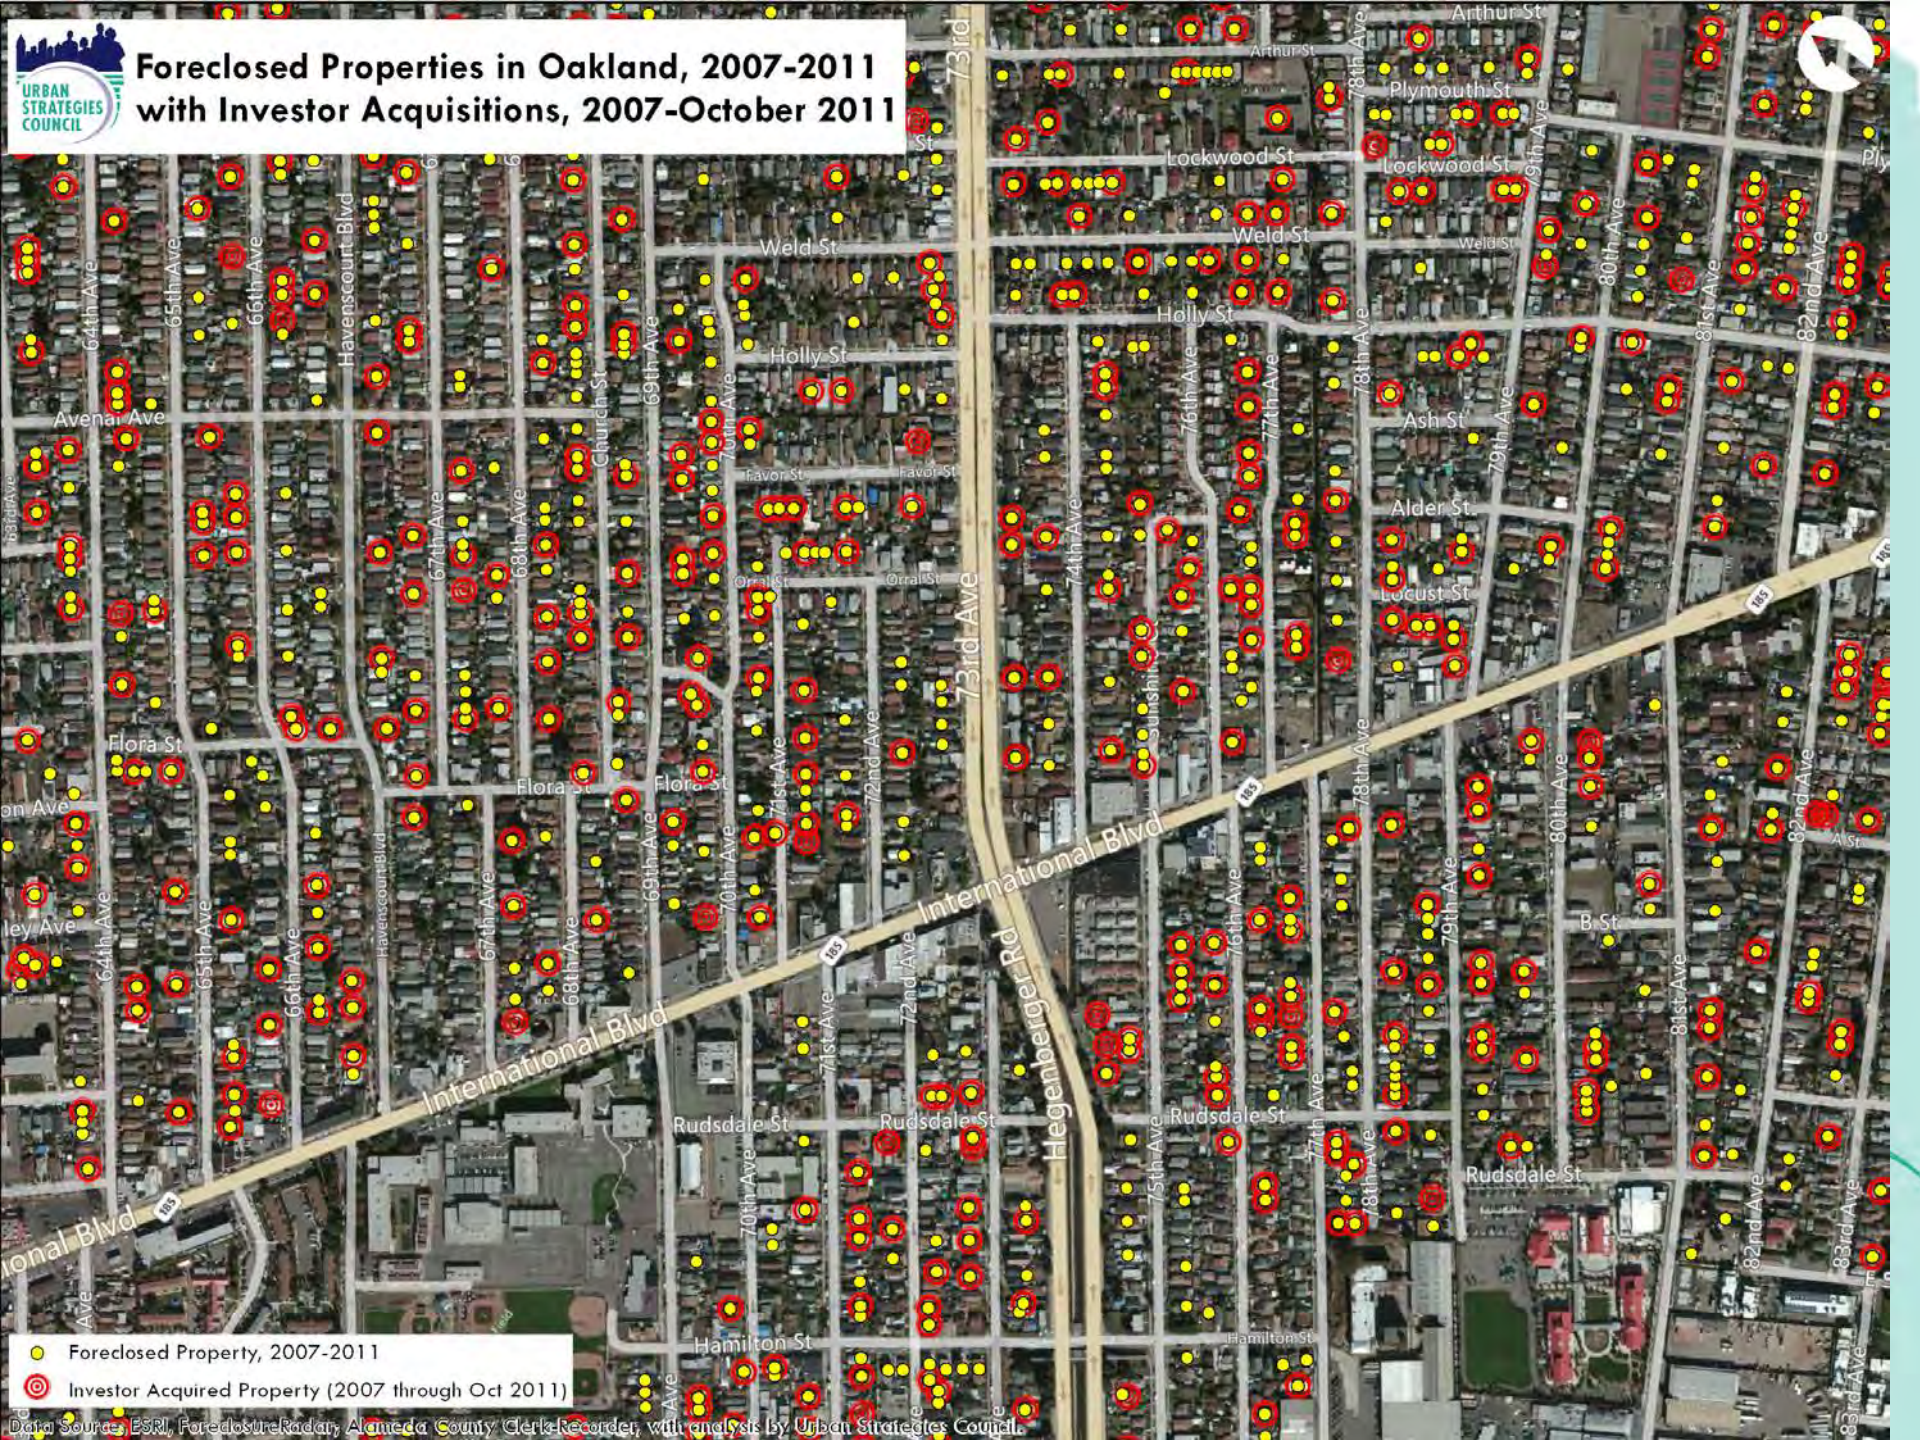

## Who Owns Your Neighborhood? The Role of Investors in Post-Foreclosure Oakland

June 2012

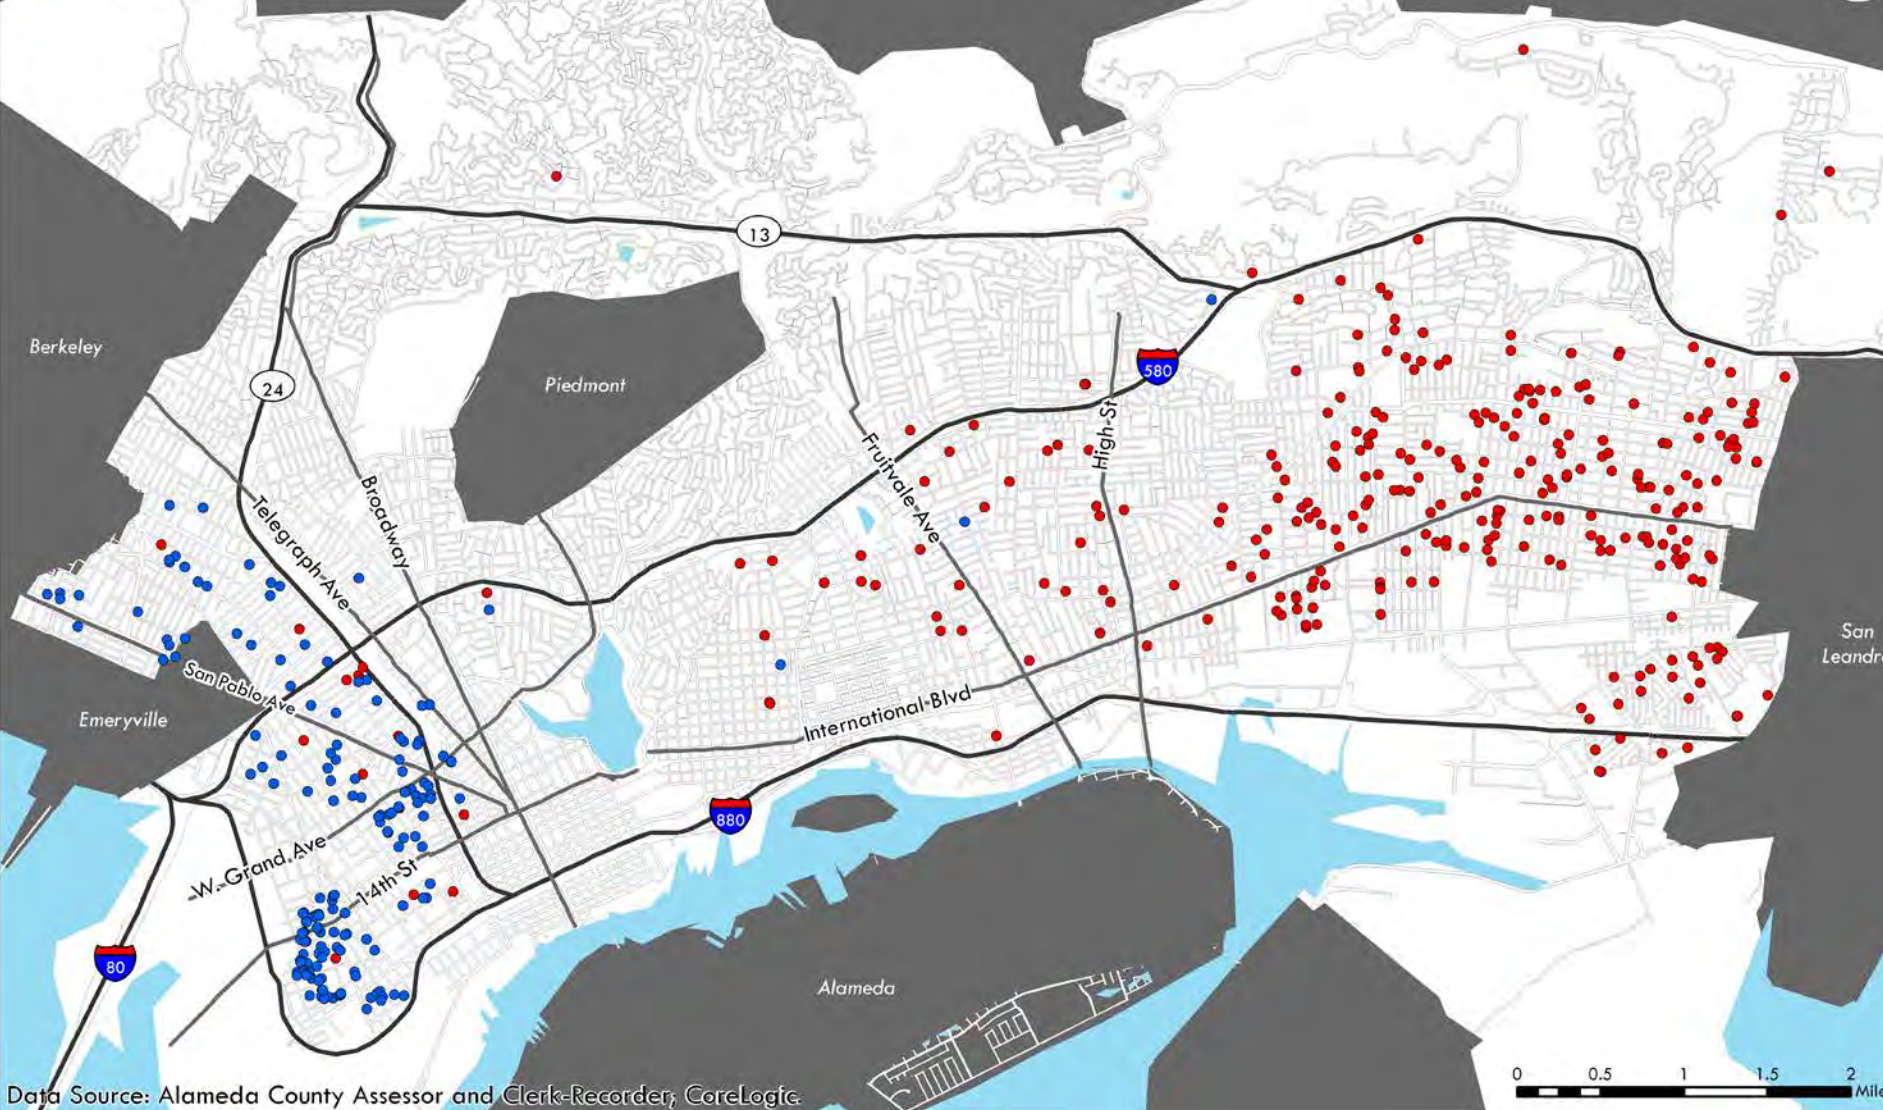

# Foreclosed Properties in Oakland, 2007-2011 with Investor Acquisitions, 2007-October 2011

- Foreclosed Property, 2007-2011
- Investor Acquired Property (2007 through Oct 2011)

Data Source: ESRI, ForeclosureRadar, Alameda County Clerk-Recorder, with analysis by Urban Strategies Council.

- REO Homes LLC Acquisition
- Community Fund LLC Acquisition

Data Source: Alameda County Assessor and Clerk-Recorder; CoreLogic.

# Mobile Property Condition Survey: Open Data Kit

# InfoAlamedaCounty.org

- Data silos – gov and nonprofit
- High demand/low funding for data/map requests
- Web mapping and data viz to help people explore and analyze
- Downloads of raw data and geographical to empower other researchers, developers, policymakers

# InfoAlamedaCounty.org

- Web based mapping platform
- Data visualization
- Full export of all data!
- Platform for publishing research, data, maps
- Built in partnership with ACPHD
- Free- open to anyone
- viewer.infoalamedacounty.org

The screenshot displays the InfoAlamedaCounty.org web application interface. At the top left is the logo for InfoAlamedaCounty.org, featuring a stylized house and the text "INFO ALAMEDA COUNTY INFORMATION FOR CHANGE". To the right of the logo, the text "INFORMATION FOR CHANGE" is displayed, followed by "V2.0" and a red "BETA" stamp. A navigation bar contains several icons: "Explore the Data", "Legends and Charts", "Post Comment", "Clear Map", "Tools", and "Open Data". Below the navigation bar is a map showing the Alameda County area, with labels for "Berkeley", "SAUSALITO", and "ALAMO". A "Charted Data" button is visible on the map. Below the map is a "Explore Data" section with a "Start Here" button and a "Pick a Category" button. The "Pick a Category" button is active, showing three categories: "Health", "Safety", and "Demographic".

**Health**  
Data that pertains to health including Births, Mortality rates, Primary Care Use, STDs, Hospitalizations and Cancer

**Safety**  
Data that pertains to safety including Reported Crimes, Probationer and Parolee Populations

**Demographic**  
Data the pertains to Population, Age, Race, Gender, Household, Family

# Data Gaps

## **Public, but not so public**

- Foreclosure filings
- Property condition - code enforcement, inspections
  - Permits - for building, renovation, rentals
    - Property Ownership
    - Every other survey...

# What is OpenData

*“increase public access to high value, machine readable datasets generated by government”*

- Makes all PUBLIC data available to the PUBLIC
- Next step in eGov

*“Opendata is rocket fuel for innovation”*  
*Former US CTO Vivek Kundra*

# What is OpenData

## 10 Principles:

- Complete
- Primacy
- Timely
- Ease of Physical & Electronic Access
- Machine readable
- Non-discriminatory
- Open standards
- Licensed openly
- Permanent
- Free

**(Interoperability)**

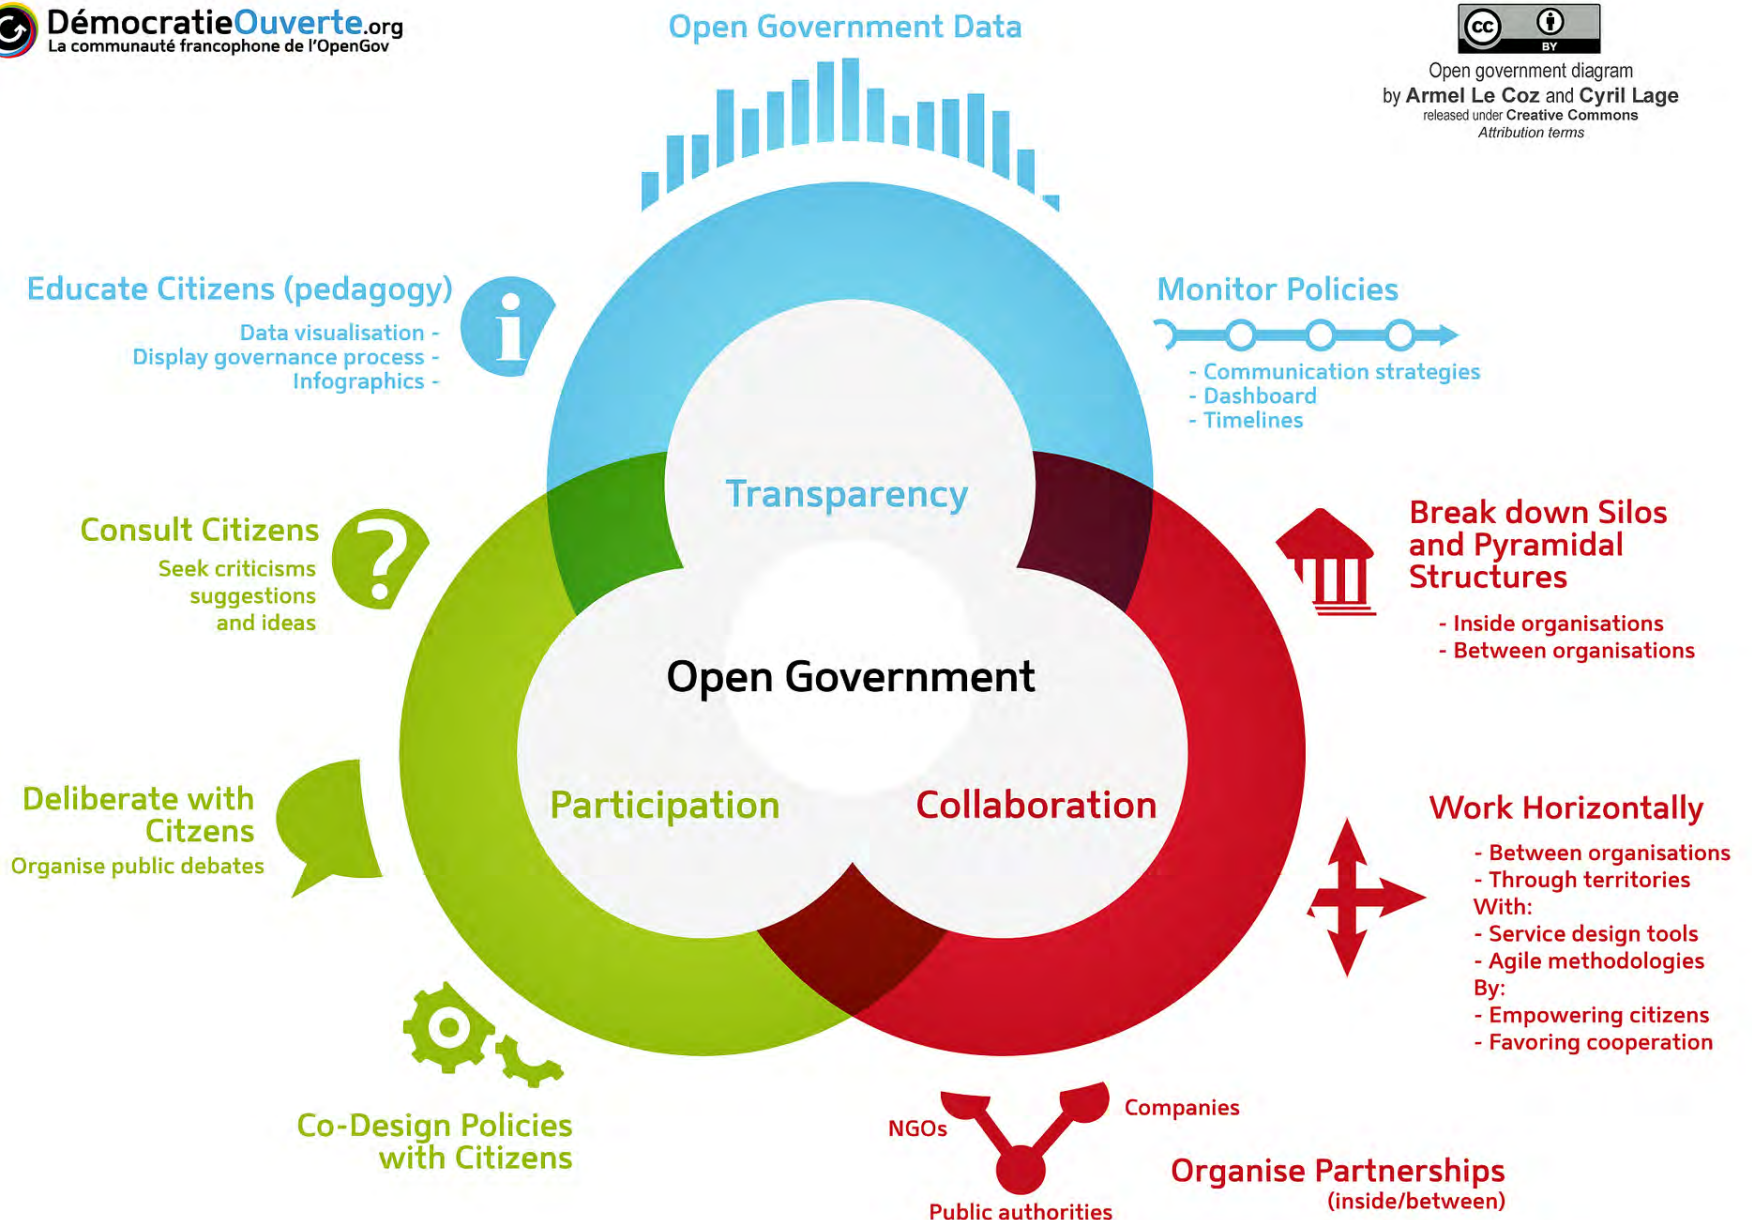

# What is OpenData not?

Never:

- Confidential information
- Personal information like health records
- Violates local, state or federal laws

# Opendata Benefits

- Innovation
- Improved efficiency of government services
- Improved effectiveness of government services
- Impact measurement of policies
- New knowledge from combined data sources

# What OpenData looks like

## County A

- Open, free parcel data
- Open, free foreclosure data
- Open, free business permit data
- Open, free social service data

## County B

- No public/costly parcel data
- Costly foreclosure data
- No public business permit data
- Closed social service data

Where would you...

- Consider investing in affordable housing development?
- Consider locating a new business?
- Consider funding community initiatives?
- Expect more robust grants from?

# Who can do “Open data”?

## OpenOakland
