Outline

- ▶ What is LED?
- ▶ LED Data Products
- ▶ How Do I Access LED Data?
- ▶ LED Analysis

LED: Local Employment Dynamics

Role of LMI Office

- ▶ States provide employer data - called QCEW - on a quarterly basis.
- ▶ Minnesota provides tools to display and view data
 - M3D mapping tool for Origin-Destination and RAC and WAC files
 - LED County Reports tool from Census gives users access to MN Quarterly Workforce Indicators

LED Data Products

- ▶ Quarterly Workforce Indicators (QWI) - data on workforce dynamics including *turnover*, *new hires* and *separations* by detailed geography, industry and demographics.
- ▶ Origin-Destination – file linking where people live to where they work by Census block.
- ▶ Workplace Area Characteristics / Resident Area Characteristics – Adds demographic and employment detail to O-D dataset.

Quality Workforce Indicators

- ▶ Average earnings
- ▶ Number of new hires and separations
- ▶ Job flows – how many people are moving into and out of jobs during a quarter
- ▶ Turnover
- ▶ All by
 - Detailed industry
 - Age category
 - Gender
 - County of employment

Origin-Destination

- ▶ Home block ID
- ▶ Work block ID
- ▶ Age
 - <31, 31-64, >64
- ▶ Earnings
 - <\$14,400, \$14,400-\$40,800, >\$40,800
- ▶ Jobs
 - All jobs
 - Primary jobs
 - Private jobs
 - Private primary jobs
- ▶ Industry – 3 broad categories

Workplace and Resident Area Characteristics

▶ Age

- Same as OD

▶ Earnings

- Same as OD

▶ Industry of Occupation

- 20 NAICS categories (2-digit)

Benefits of LEHD Data

- ▶ Updated frequently
 - O-D updated annually
 - QWI updated quarterly
- ▶ Population data, not sample or survey data
- ▶ Geographic detail - data available at block level
- ▶ Some demographic data available
 - Wage
 - Age
 - Industry of employment
 - Gender

Limitations to LEHD Data

- ▶ Latest available O-D data is 2006
- ▶ Only includes jobs covered by Unemployment Insurance Program (~90-95% of jobs nationwide)
- ▶ Only accurate to the extent that the underlying data are accurate
- ▶ Demographic data presented in broad categories
- ▶ Census does “fuzzing” of data to protect business/worker identity

Where to Get LED Data

- ▶ Cornell Virtual Research Data Center
- ▶ Web GIS Sites
 - OnTheMap
 - Minnesota 3D
- ▶ Open Source (MapServer, Chameleon, PostGIS)

Cornell Virtual Research Data Center
