NATIONAL NEIGHBORHOOD INDICATORS PARTNERSHIP

UNIVERSITY OF MINNESOTA
Driven to Discover

NATIONAL NEIGHBORHOOD INDICATORS PARTNERSHIP (NNIP)

- Collaborative effort since 1995
 - Urban Institute & local partners; now 35 cities
 - All partners regularly assemble, organize and transform neighborhood-level data to support local decisionmaking.
 - Success based on:
 - Trusted and engaged institutions
 - Relevant and high-quality data
 - Mission to support use of data for local action

NATIONAL NEIGHBORHOOD INDICATORS PARTNERSHIP

Twin Cities Housing Market Index

- The Challenge of Neighborhood Stabilization*
 - Need to target funds very efficiently, but easy to make mistakes
 - Good decisions requires good data

* - LISC, Foreclosure Response.org

ALIGNING POLICIES WITH NEIGHBORHOOD CONDITIONS

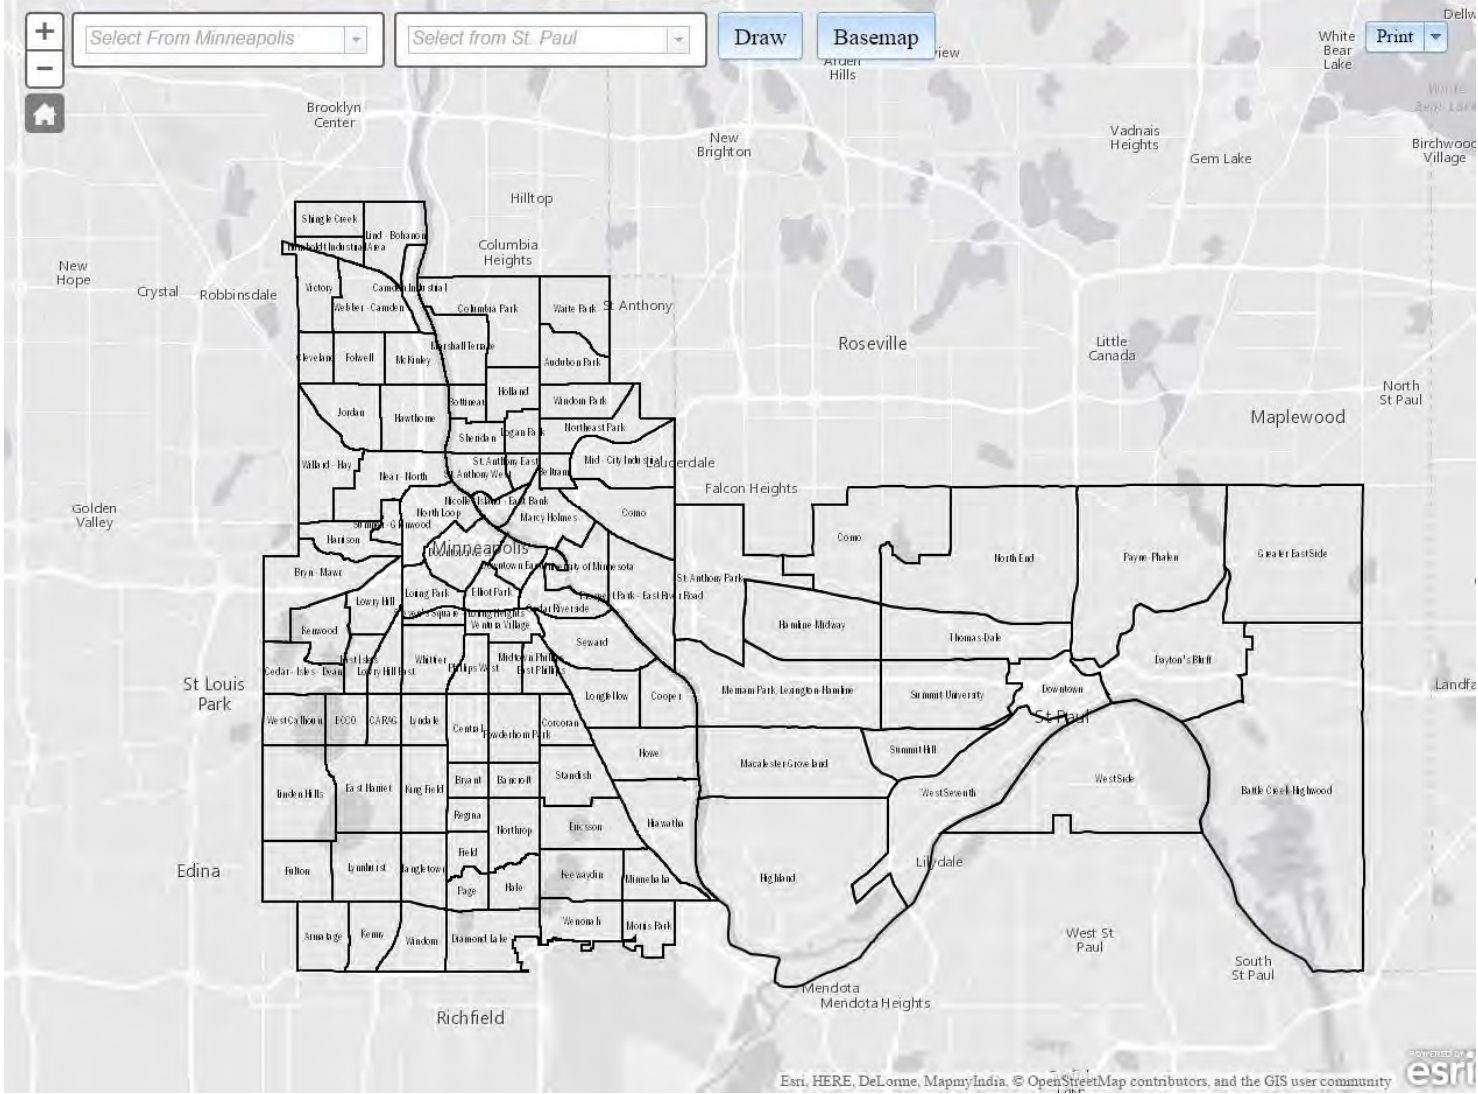

| MARKET STRENGTH | FORECLOSURE IMPACT RISK | | |
|-----------------|--------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|----------------------------------------------------------------------|
| | C. Actual high foreclosure density | B. High risk of high foreclosure density | A. Low risk of high foreclosure density |
| 1. Strong | Facilitate rapid sales to sustainable owners, low/no subsidy | Lower cost effort to prevent foreclosures and vacancies, low/no subsidy | Lower priority |
| 2. Intermediate | High payoff/priority, rehab and rapid sale to sustainable owners, target subsidies, neighborhood maintenance | High payoff/priority, prevent foreclosures and vacancies, emphasize neighborhood maintenance | Lower priority but watch carefully, head-off emerging problems early |
| 3. Weak | More emphasis on securing/demolishing, land banking to hold until market rebound | Lower cost effort to prevent foreclosures and vacancies | Lower priority but watch carefully, head-off emerging problems early |

Housing Market Index Variables

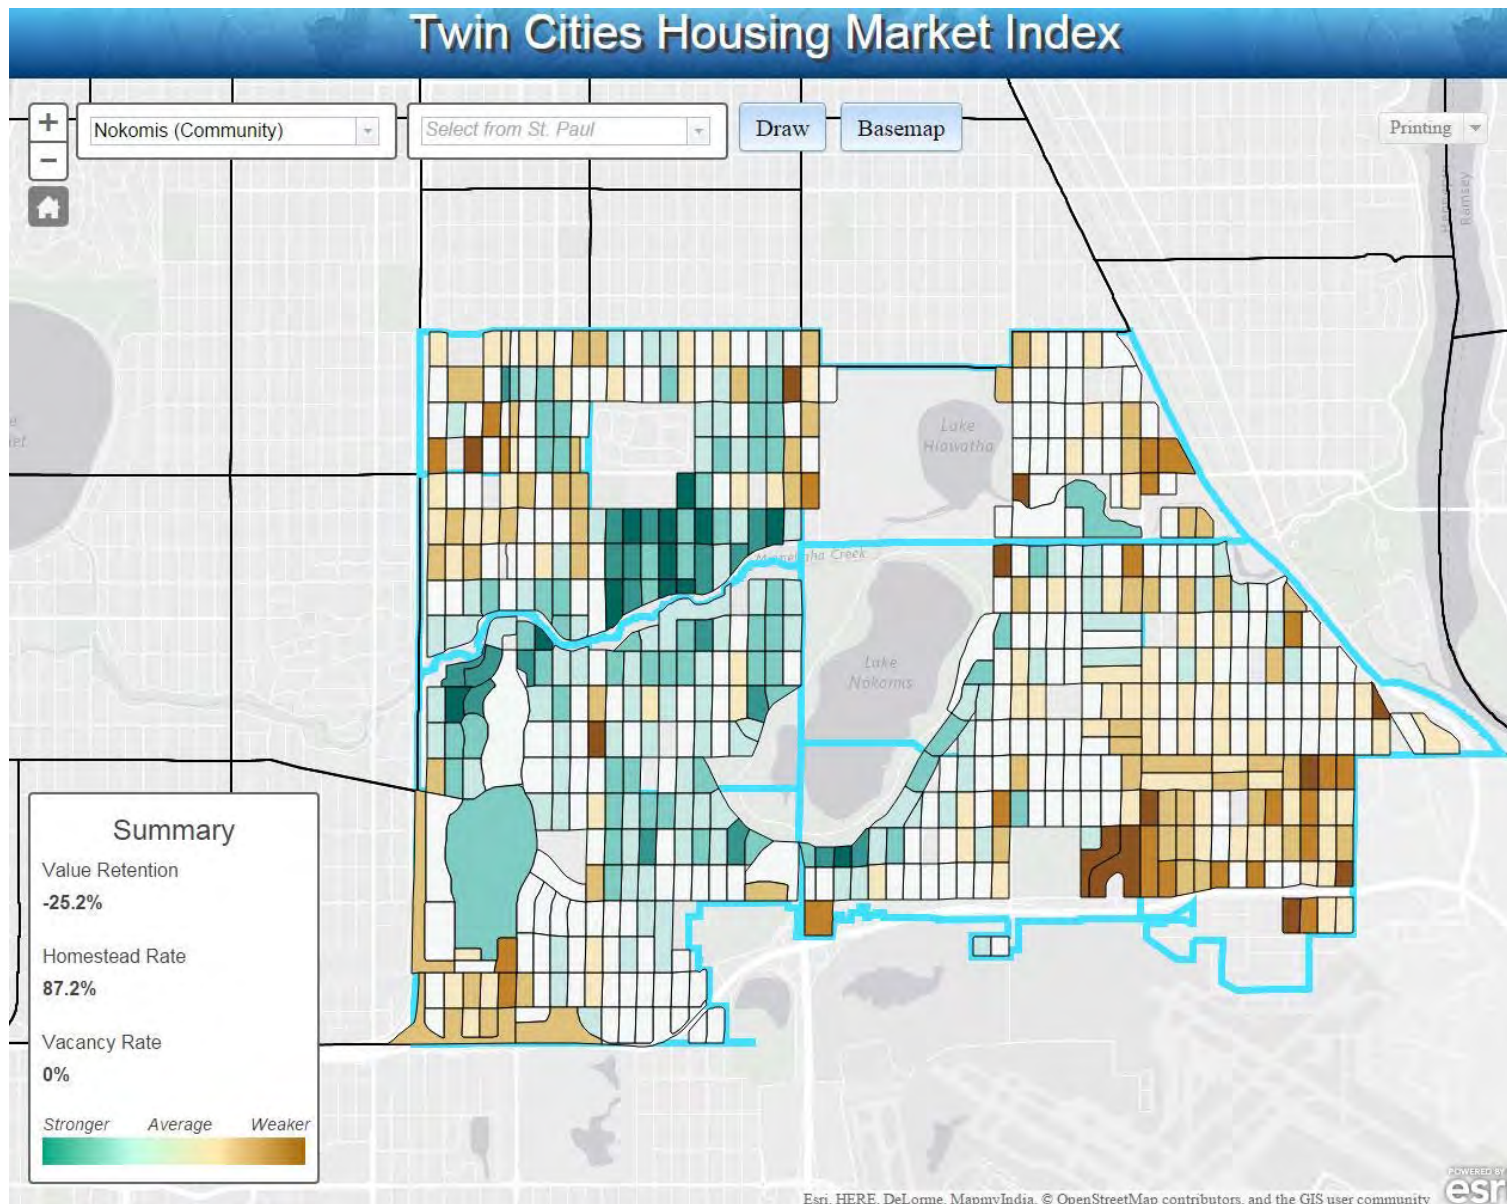

- Value Retention
- Owner-Occupants
- Housing Condition Rating
- Vacancies

This map displays the housing market strength across a portion of the Denver metropolitan area. The area is divided into a grid of small, irregular polygons, each colored according to its market strength. The color scale ranges from red (Weak) to green (Strong), with yellow and orange representing intermediate levels. Major roads are labeled, including 48th Ave, Downing Ave, Lowry Ave, Golden Valley Road, Plymouth Ave, and Glenwood Ave. The map also shows the location of the Denver International Airport and the surrounding urban and suburban areas.

LISC Building Sustainable Communities Focus Areas

Fair Housing Equity Assessment

Behind the region's economic prosperity are wide disparities between people of color and the rest of the population.

The region ranks #1 nationally for disparities in poverty, employment and homeownership, and near the top (#4) for per capita income.

Poverty

5.7x higher

FOR BLACK PEOPLE than
for white non-Latino people

Unemployment

2.9x higher

FOR BLACK PEOPLE
than for white non-Latinos

Homeownership

49%

HOUSEHOLDS OF COLOR
are half as likely to own their
home as white non-Latino
households

Per Capita Income

\$18,078

PEOPLE OF COLOR

\$37,493

WHITE NON-LATINOS

Overview

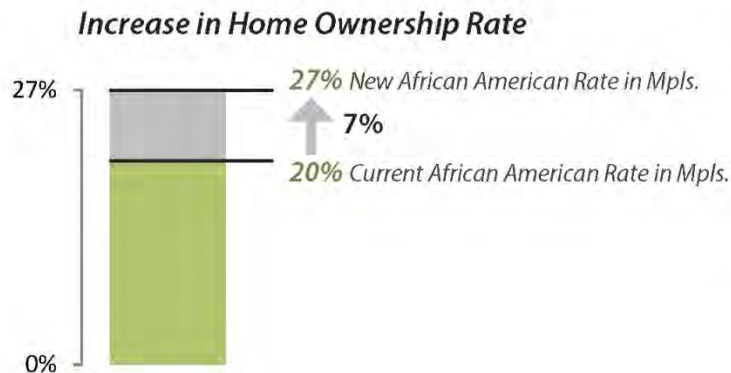

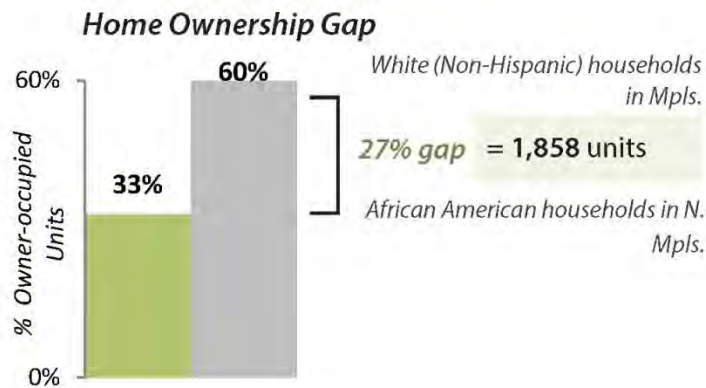

- Contract with LISC and Building Sustainable Communities Partners
 - Neighborhood Assessment
 - Technical Assistance
- Shared understanding of data
- Illuminating gaps & racial disparity
- Quantify the values in each critical category
- How can community organizations best use this data?

Data Categories

- Housing
 - Cost-burdened households
 - Vacancy
 - Home ownership
- Employment
 - Unemployment rates
 - Labor force participation
 - Joblessness
- Poverty
 - Households in poverty
 - Wage categories
- Public Safety
 - Crime

LISC Neighborhood Assessment

Housing: Home Ownership

KEY FINDINGS

Home Ownership Rate

- The overall home ownership rate for North Minneapolis is roughly equivalent to the overall citywide rate
- In North Minneapolis, the home ownership rate for Non-hispanic whites is more than 25 percentage points higher than for all other racial/ethnic groups

Home Ownership Gap

- If the home ownership rate for African Americans in North Minneapolis were to match the city rate for Non-hispanic whites, 1,858 African American households would need to enter home ownership

Increase in Home Ownership

- If 1,858 African American households purchased homes, the citywide African American home ownership rate would increase from 20% to 27%

Statistics

Social Explorer - ACS 2008 -- 2012 (5-Year Estimates)

| Statistics | TOTAL (Selected Census Tracts in NAZ area) | Minneapolis city, Minnesota | | | | | | | |
|---------------------------------------------------------------------------------------------------------|--------------------------------------------|-----------------------------|---------|-------|--|--|--|--|--|
| SE:T1. Total Population | | | | | | | | | |
| Total Population | 11,438 | 385,023 | | | | | | | |
| SE:T40. Unemployment Rate For The Population 16 Years And Over (White Alone) | | | | | | | | | |
| White 16 Years Old In Civilian Labor Force: | 987 | 175,252 | | | | | | | |
| Employed | 791 | 80.1% | 163,932 | 93.5% | | | | | |
| Unemployed | 196 | 19.9% | 11,320 | 6.5% | | | | | |
| SE:T41. Unemployment Rate For The Population 16 Years And Over (Black Or African American Alone) | | | | | | | | | |
| Black or African American 16 Years Old In Civilian Labor Force: | 2,269 | 30,506 | | | | | | | |
| Employed | 1,428 | 62.9% | 23,518 | 77.1% | | | | | |
| Unemployed | 841 | 37.1% | 6,988 | 22.9% | | | | | |

In order to reduce the African-American unemployment rate to: **7%**

This many more people would need to find jobs: **694**

In order to reduce the African-American unemployment rate to: **20%**

This many more people would need to find jobs: **387**

Sheet1 Sources & Notes

Ready NUM

Indicator Assessment

- Consistent spatially concentrated and racially differentiated economic disparities North Minneapolis
- Trends have remained constant in the last decade
- Targeted strategies need to take into account both race and location
- Moving Forward
 - How can we target policies toward closing this gap?
 - Understanding the multi-dimensional framework of education, unemployment, housing cost and poverty
 - Place-specific and program-oriented

Thank You!
