

Open Indicators Consortium Update – Latest on Weave

NNIP Partners:

NNIP members of the Open Indicators Consortium met for a day before the Providence meeting to work on our plans for further development and use of the Weave open source data visualization platform (see www.oicweave.org).

We reviewed a number of new features in development including enhanced performance with large data sets; real time collaboration in the software across users; and expanded analysis tools and capabilities, including integration with R statistical analysis software.

We invite you to explore what each of us is doing in Weave and what it would take to install and use Weave for your work. Soon we will be releasing “Simple Weave” which will enable organizations without access to specialized server support to install and run Weave. We are also exploring other ways to make Weave more accessible to all organizations.

The Weave wiki has links to all our public sites, to demos of Weave, to documentation, and to the Github code repository where you can download the software
(<http://info.oicweave.org/projects/weave/wiki>) A sampling of sites: Rhode Island DataHub: www.ridatahub.org / CT Data Collaborative (with DataHaven): www.ctdata.org / MAPC: <http://metroboostondatacommon.org/>

If you are interested in becoming a member of OIC, check out the options on the www.oicweave.org web site. Please contact one of the NNIP/OIC members if you are interested in discussing Weave and our work with it.

-- OIC NNIP Members

OIC Founding and Primary Members

1. **Arizona** (Arizona Indicators, a project managed by Morrison Institute for Public Policy at Arizona State University)
 2. **Metro Atlanta/Atlanta GA** (◆ Neighborhood Nexus Partnership)
 3. **Metro Boston/Boston**(★ ◆ Metropolitan Area Planning Council and the Boston Indicators Project at the Boston Foundation)
 4. **Metro Chicago/Chicago IL** (★ ◆ Chicago Metropolitan Agency for Planning)
 5. **Columbus/Central OH** (◆ Community Research Partners, MORPC)
 6. **Connecticut (CERC & CT Data Collaborative** (with★ ◆ New Haven★ ◆ Hartford)
 7. **Mid-America Regional Council on behalf of the Kansas City Community-Wide Information Network** (★ MARC and ◆ Kansas City Data Collaborative)
 8. **MA Dept of Early Education and Care**
 9. **Michigan Data Collaborative, a project managed by the Johnson Center's Community Research Institute and including Data Driven Detroit** (◆ Grand Rapids / ◆ Detroit)
 10. **Rhode Island** (Rhode Island Dept of Education and ◆ the Providence Plan)
 11. **Rockford Region Vital Signs**★
 12. **Seattle/King County Public Health Department** ◆
 13. **South Florida Regional Planning Council/Southeast Florida Regional Partnership** (including Miami) ★ ◆
 14. **Participating Member: San Antonio - Community Information Now - NNIP Partner**◆
 15. **Learning Community Members: Institute for Metropolitan Studies, Portland State University** ◆
 16. **Learning Community Members: Associated Grant Makers**
- ◆ **NNIP Partners (14)** / ★ **HUD Sustainable Communities Grantee (7)**
